Art Unit: 1745

The following is an examiner's statement of reasons for allowance: In paper no. 3, claims 5-9, 16 and 17 were allowed because the prior art did not disclose "a control system operating in response to a condition of the turbine generator, in combination also with a fuel cell, an electrical dissipation device, and dissipation device cooling system." Applicant points out that claim 5 does not recite a fuel cell, while claim 16 does not recite a "separate control system". Thus, the reference to a fuel cell in claim 5 was incorrect, but the prior art still does not disclose the combination of a control system responsive to the condition of a turbine generator, with an electrical dissipation device, and dissipation device cooling system. While claim 16 does not recite a "separate control system", it recites the cooling system as providing "thermal control to the electrical dissipation device".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen J. Kalafut whose telephone number is 571-272-1286. The examiner can normally be reached on Mon-Fri 8:00 am-4:30 pm.
